

Introducing  
13mm  
Impact Drill

MODEL  
KPT13H 1800

13 mm  
Impact Drill

Technical Specification

|                   |             |         |
|-------------------|-------------|---------|
| Model             | KPT13H 1800 |         |
| Voltage           | V           | 220-240 |
| Friquency         | V           | 50Hz    |
| Power             | W           | 600     |
| No Load Speed     | rpm         | 1800    |
| Drilling Capacity |             |         |
| In Aluminium      | mm          | 13      |
| In Wood           | mm          | 25      |
| In Steel          | mm          | 10      |
| In Concrete       | mm          | 13      |
| Impact Rate       | bpm         | 28000   |
| Weight            | Kg          | 1.6     |

Technical Feature

- Powerful motor with more impact
- Soft grip handle for comfortable work
- Compact and light weight design
- Strong Aluminium Gear Box

Inspiring New Levels of Excellence
